10th March-2017 Royal Palm Lahore

Course Fees: PKR 21,500/-
Timing: 9:00 am to 5:30 pm

Program Overview and Course Outline:

ICC INCOTERMS, 2010 in the last decades, for many companies, a strategic necessity results within the scope of globalization to use broader access to new markets and to take part in international business. Most pursued goals are market protection, cost minimization, capacity utilization and maximization of profit. The Incoterms rules or International Commercial terms are a series of pre-defined commercial terms published by the International Chamber of Commerce (ICC) widely used in international commercial transactions. A series of three-letter trade terms related to common sales practices, the Incoterms rules are intended primarily to clearly communicate the tasks, costs and risks associated with the transportation and delivery of goods. The Incoterms rules are accepted by governments, legal authorities and practitioners worldwide for the interpretation of most commonly used terms in international trade. They are intended to reduce or remove altogether uncertainties arising from different interpretation of the rules in different countries. They have been incorporated in contracts for the sale of goods worldwide and provide rules and guidance to importers, exporters, lawyers, transporters, insurers and students of international trade.
