

INVENTORY MANAGEMENT AND WAREHOUSING

Date & Venue: 2nd November Movenpick Hotel Karachi - 9th November-2017 Falettis Hotel Lahore
Course Fees: 24,500/- (exclusive of GST) - PKR Timings: 9:00 am to 5:30 pm

Course Overview

All businesses have to carry stock or inventory of some kinds in order to ensure that the demands from customers are met promptly. Inventory management is risky, and risk varies upon a firm's position in the service, manufacturing and distribution systems. The typical measures of inventory exposure are time duration, depth and width of commitment. For business survival and profitability, inventory must be managed strategically. Managing its levels, qualities, quantities and storage areas (environmental conditions) to achieve profitability by minimizing overstocking and stock-outs

This course deals with all aspects of the inventory and warehouse operation. Participants will be introduced to issues of tracking, handling and managing goods and material that are held in stock. By the end of this course, participants will be able to use advanced techniques in order to reduce inventory and associated storage and handling costs.
